

HÄFELE AXILO™ PLINTH ADJUSTING FITTING SYSTEM

Easy. Convenient. Efficient.

AXILO™ by Häfele is a new, revolutionary plinth adjusting fitting system. The combination of the adjusting tool and the plinth adjusting foot makes levelling a kitchen or a furniture item a simple, comfortable operation.

How using the AXILO™ can help you.

Easy cabinet levelling with just a few manual operations.

Ergonomic and back-friendly installation.

Time saving of up to 50% during kitchen or furniture assembly.

Large area of application for plinth heights from 50 to 220 mm

Engineered by Häfele

DEVELOPMENT

Innovative system with patented technology. Ergonomic solution.

PRODUCTION

Products with high quality
"Made in Germany".

LOGISTICS

Global availability.

PATENTED

Unique features of the AXILO™ plinth adjusting fitting system.

These outstanding features distinguish AXILO™ from technically comparable connectors from other manufacturers:

ERGONOMIC

No more bending over, crawling, or stretching: With AXILO™ you can also conveniently access the rear plinth feet.

UNCOMPLICATED

The AXILO™ adjusting tool can be positioned and operated from any angle. Practical, particularly in areas that are difficult to access.

EFFICIENT

Since you always work in front of the cabinet with AXILO™, you always have the spirit level in view – which saves time and energy.

LONG REACH

The unique AXILO™ adjusting tool acts as an extended arm – with the additional extension you can even reach the plinth feet of corner base units.

QUICK

Convenient operation with a power tool is also possible – thanks to a 1/4" chuck, both in the AXILO™ adjusting tool and also in the AXILO™ extension.

UNIVERSAL

AXILO™ can be used for all types of cabinet, from the kitchen base unit, to the office cabinet to wardrobes.
